

Wheelabrator Kemsley (K3) & Wheelabrator Kemsley North (WKN) Waste-to-Energy Facility

This form is to provide feedback on proposals for a power upgrade and tonnage throughput increase for Wheelabrator Kemsley (K3) and for a new waste-to-energy facility, called Wheelabrator Kemsley North (WKN).

The proposals would enable K3 to operate more efficiently to generate an increased amount of electricity and to process more post-recycled waste. We are also proposing to construct a new waste-to-energy facility (WKN) on land immediately adjacent to K3. More information about the proposals can be found on our website:
